

Evidence Based Essay

There is a lot of discussion about whether.... I believe....because..... In addition according to the article,... In my experience,...

On the other hand, there are also strong arguments against this point of view. Opponents believe I disagree with that because.....

After weighing both sides of the debate about **(Essay Topic)**, it is clear that because....

Example:

There is a lot of discussion about whether we should fund sea exploration or not. **I believe** we should **because** there is a lot that can be learned from the oceans. **In addition according to the article**, with the proper research there could be solutions to many different types of illnesses in the unexplored parts of the ocean. **In my experience**, I have lost many loved ones to diseases with no cure such as cancer.

On the other hand, there are also strong arguments against this point of view. **Opponents believe** that we would be better off spending money on space exploration rather than sea exploration. **I disagree with that** because although space exploration is important I believe there is a wealth of knowledge in the ocean that we have not even begun to find.

After weighing both sides of the debate about funding sea exploration, **it is clear** that it is a necessary avenue for exploration that could lead to cures for terminal illnesses. We will never know what may lie on the bottom of the ocean if we do not fund sea exploration.
